Muhammad Zunnurain Hussain

has successfully completed the online, non-credit Professional Certificate

Data Engineering with Google Cloud

This six-course accelerated Professional Certificate is designed for data professionals who are responsible for designing, building, analyzing, and optimizing big data solutions. Learners carried out serverless data analysis and productionize machine learning models. Learners integrated prior technical skills into practical skills for the job role of a Data Engineer.

The online specialization named in this certificate may draw on material from courses taught on-campus, but the included courses are not equivalent to on-campus courses. Participation in this online specialization does not constitute enrollment at this university. This certificate does not confer a University grade, course credit or degree, and it does not verify the identity of the learner.
